DETAILED ACTION

Allowable Subject Matter

Claims 1-7, 9, 13, and 16-21 are allowed.

The following is an examiner's statement of reasons for allowance:

The additional prior art submitted 4 September 2009 does not disclose or suggest the patentable subject matter described below. Claims 1-7, 9, 13, and 16-21 are allowed for the same reasons as given in the previous Office Action, repeated below.

Independent claims 1 and 19 require emitting a model audio signal to be imitated to the auditory organs of a subject, performing a spectral analysis on the model audio signal, emitting an imitation audio signal that corresponds to the model audio signal while a subject is practicing a language to be studied, and correcting the imitation audio signal as a function of a comparison between the spectrum of the imitation audio signal and the model audio signal.

Cave et al. disclose a method of altering the spectrum of a user's speech signal when practicing a language to be studied. However, the spectrum of the user's speech signal is corrected based on the language being learned. Thus, Cave et al. do not disclose or suggest first emitting a model audio signal and performing a spectral analysis on the model audio signal to use in the correction step.

Jeong discloses a method of switching between a model audio signal and a user's imitation audio signal so that the user can compare the two audio signals.

Art Unit: 2626

However, Jeong does not disclose or suggest modifying the spectrum of the user's imitation audio signal and further does not disclose or suggest performing a spectral analysis on the model audio signal.

Yoshioka et al. disclose a karaoke device that analyses model audio signal to be imitated and adjusts the spectrum of an imitation audio signal to match the model audio signal. However, since Yoshioka et al. is applied to a karaoke application, there is no teaching or suggestion to first emit the model audio signal to be imitated, because a user would sing along as the music was playing, and not listen to the target singer prior to providing an imitation audio signal. Further, Yoshioka et al. do not disclose or suggest practicing a language being studied.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
